Using Make Ten to Add — Let's Practice

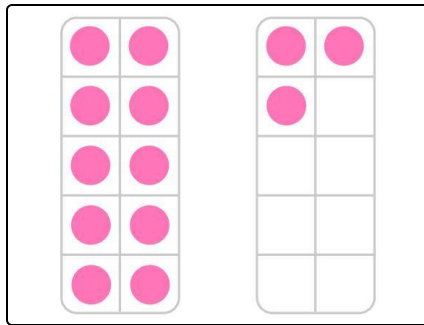

- 1 Use the 10 frames to solve the equation.
- 2 How to add using 10 frames.
- 3 Help Mr. Squeaks solve the equation.
- 4 Add using the 10 frames.
- 5 Solve all the equations.
- 6 Solve the word problem.
- + with many hints, answer keys, and solution approaches for all tasks

The complete package, **including all tasks, hints, solutions, and solution approaches**, is available to all subscribers of [sofatutor.com](https://www.sofatutor.com)

Use the 10 frames to solve the equation.

Place the correct answer into the blank.

Shown is **13** on the 10 frame.

39

50

49

48

$$36 + 13 = \text{.....}$$

Our hints for the tasks

Use the 10 frames to solve the equation.

1. Hint

Start by identifying the **larger** number in the equation.

2. Hint

Count up the number of dots in the 10 frame starting from the larger number.

So, the first dot should be counted as 37.

Solutions and solution approaches for the tasks

Use the 10 frames to solve the equation.

Answer key: 49

$$36 + 13 = \mathbf{49}$$

First, start with the larger addend, 36.

Then, use the ten frames to add on 13.

$$36 + \mathbf{10} = 46. \quad 46 + \mathbf{3} = 49.$$
