Estimating Sums and Differences— Let's Practice

- 1 Estimate the sum.
- 2 Place the estimates where they belong.
- 3 Estimate the digits and the sum to the nearest 1,000.
- 4 Fill in the missing numbers.
- 5 Fill in the missing estimates.
- 6 Fill in the difference.
- + with many hints, answer keys, and solution approaches for all tasks

The complete package, including all tasks, hints, solutions, and solution approaches, is available to all subscribers of [sofatutor.com](https://www.sofatutor.com)

Estimate the sum.

Estimate the sum of these two numbers.

$$\begin{array}{r} 3,754 \\ + 4,213 \\ \hline \end{array}$$

Our hints for the tasks

Estimate the sum.

1. Hint

Remember to round each number to estimate the sum.

2. Hint

Look at the number 3, **754**. Is it closer to 3,000, or to 4,000?

3. Hint

Look at the number 4, **213**. Is it closer to 5,000, or 4,000?

Solutions and solution approaches for the tasks

Estimate the sum.

Answer key: 8,000

We round 3,754 up to 4,000. Then, we round 4,213 down to 4,000.

$$4,000 + 4,000 = \mathbf{8,000}$$
